Student Supplies List

These are supplies which will be needed by students in various grade levels. This list is not exhaustible, and as the school year progresses other supplies might be requested by teachers for certain subjects. Each student in grades 4 through 12 will be required to have a planner. (The school has provided these in the past, but a lot of students don't use them the way they are intended. This year, students will need to provide their own – maybe they'll use the ones they buy.)
